To Dedicate Frederic Church

Rev. Claire Olin, pastor of the First Baptist Church of Frederic, announces the dedication services of their new church building.

Rev. Olin became pastor in October, 1964. The new building was started the following May.

Dedication services will be held Sunday, Aug. 25 at 3:00 p.m. There will be three nights of special pre-dedication services. Sunday evening, Aug. 18 Rev. Donald Block, missionary to Haiti who is partially supported by the Frederic Church, will keynote the dedication services with a missionary message.

On Thursday, Aug. 22 and Friday, Aug. 23, Rev. Ernest Lait and Rev. William McEachern will be the former pastor guest speakers on these nights.

Rev. Charles Opitz and Rev. Lucian Hall, also former pastors, will be present and speaking at the Sunday services Aug. 25.

There will be special music at each service and one evening there will be slides depicting the progress of the work of construction.

The entire project has been a work of faith with volunteer labor on a pay as you go basis. We are glad to report the church will be dedicated free of debt.

A picture of the completed structure will appear in next week's Avalanche. We welcome the public to come and rejoice with us.

To Hold Concert At Roscommon

The newly established chamber orchestra will present its first public concert, Sunday, August 18, at 8:00 p.m. in the Gerish Higgins High School gymnasium. Free admission.

Sunday Rum Sale Okayed For County

The Crawford County Board of Supervisors at their meeting held Monday, Aug. 12, okayed the sale of liquor by the glass on Sundays in Crawford County. Six members voted for the okay, one voted against, with one abstaining.

It will now be up to the Michigan State Liquor Control Commission to determine which places in the county that are eligible for the Sunday licenses.

Little League Games

By Harry Miller

If you think you hear the big guns of the National Guard in the evening hours, take another guess. It's really the Military League as they capture the League baseball crown.

Frank Schmidt and Rick Post have guided this fine team and have molded them into champions. Congratulations on their League title.

Sorensens with a solid foot in 2nd place, split games with the Legion last week. One game proved to be a real cliff-hanger.

At the end of regulation play the score was tied 1-1. In the eighth inning, Sorensens scored twice but victory for them was not to be as the Legion came back in the last half of the eighth to score 3 runs and win 4-3.

The Moose were caught napping in the woods. Hampered by injuries, they have played solid ball, but were unable to bring a victory home last week.

Watch the Avalanche for a final recap of the season next week. Final games of the season are two make-ups, Moose vs. Military August 19, and Legion vs. Sorensens August 20.

To Hold Annual Silver Tea Aug. 14

The Lovells Chapel Guild is sponsoring its annual Silver Tea Wednesday, August 14, from 2 to 4 p.m. There will be a program at the Lovells Chapel and the tea and bake sale in the Woman's clubhouse adjoining. Everyone is welcome.

Our Man in Florida

By Richard Millman

MIAMI BEACH — When you come to a convention like this one — the Republican National Convention at Miami Beach — you have to wonder at why anyone would fight so hard to be a delegate to it.

There are fights to attend these conventions, of course, and to be a delegate — or an alternate, or a sergeant-at-arms, or a courier, or a secretary, or a reporter — is quite a distinction.

Prices are high. There are always delays and inconveniences, like the 4½ hours one airliner sat in Detroit waiting takeoff. Prices are high. Mixups develop on rooms and accommodations. Prices are high. You can never get the tickets you want to attend the convention. Prices are high. The days are long, the nights for sleeping are short, the lines at restaurants are long. And of course, prices are high.

The delegate's actual function at these conventions varies according to circumstance; but generally, the delegate has little actual individual decision to make. There is strength in union, not in individualism, and the delegate must in turn delegate much of his decision-making to those he trusts — such as governors, or senators, or congressmen, or chairmen, or such.

The work of the alternate is even less glamorous — something like the vice president or lieutenant governor. He's important only if someone dies or gets sick.

As for the sergeant or the courier or the secretary, the work is just that — work. And it's far from the center of the glamor, too.

Then there's the reporter. The small-town variety hovers on the fringes. He's not on TV panel shows. Sometimes he doesn't even get to press conferences. There are no exclusive interviews.

Guard Training Ends Here

CAMP GRAYLING, Mich. — About 6,000 National Guardsmen from Indiana and Ohio, all members of the 38th Infantry Division, are completing their annual summer training and are scheduled to start returning home Saturday, Aug. 17.

Units will return by motor vehicle convoy to their home armies. Staggered convoys will use U.S. 27 southward to the Indiana border, then Interstate 69 for units driving to central and southern Indiana. For most of them, it will be a two-day trip.

Ohio-bound convoys will move by two routes, Interstate 75 to U.S. 25, or U.S. 27 to U.S. 10 to Interstate 75.

The two weeks of active duty focused on training and living conditions that simulate combat situations. Guardsmen worked to perfect their skills in living in the field, setting up defensive positions and mounting attacks, devising systems of camouflage and quiet movement, and training with individual weapons.

Major units of the 38th from

Indiana on hand for the exercises are the 38th Division Support Command, 1st Squadron of the 238th Cavalry, 38th Aviation Battalion, 113th Engineer Battalion, 138th Signal Battalion, 38th Military Police Company, and Headquarters and Headquarters Company, 38th Infantry Division.

The major Ohio contingent is

the 73rd Brigade. Aside from the field training, the Guardsmen joined with their fellow citizens of the Division's Michigan units for the annual division review last Friday.

An Indiana unit and an Ohio unit were named as outstanding units in the division at the review. They were Headquarters

and Headquarters Company, 38th Supply and Transport Battalion of Terre Haute, Ind., and the First Forward Support Section of Company A of the 38th Supply and Transport Battalion of Piqua, Ohio.

The Division is commanded by Maj. Gen. Kenneth W. Brewer of New Albany, Ind.

While some divisional units trained here, other Guardsmen were undergoing similar experiences at Camp Atterbury, Ind. Major units at that installation are elements of the 76th Brigade: 1st Battalion, 152d Infantry, 2d Battalion (Mechanized) 152d Infantry, 1st and 2d Battalions of the 23rd Infantry, and some support from Headquarters and Headquarters Detachment, Military Department of Indiana, and the Division's Support Command.

The Division's performance at both locations was evaluated by regular Army personnel on the scene. Several General officers made inspection tours at Camp Grayling to study specific areas of operation.

Indiana Soldier of Year Honored

CAMP GRAYLING, Mich. — A National Guard master sergeant from Terre Haute, Ind., has been named "Soldier of the Year" in the 38th Infantry Division, made up of Guardsmen in three states.

M. Sgt. Joseph S. Heck Jr., 34 years old, was honored Thursday by Division officers and Grayling area civic leaders.

He was cited for exceptional military knowledge and a high quality of leadership.

Heck now is chief supply non-commissioned officer for the 38th Supply and Transportation Battalion, headquartered in his home town. At the time he was considered for the award, Heck was serving as first sergeant of Headquarters Company of the 38th Supply and Transportation Battalion.

That company Friday received the Eisenhower Trophy, awarded each year to the Division's unit rated most outstanding. This year, two such awards were given. The 1st Forward Support Battalion, Company A, of the same battalion located at Piqua, Ohio received the other.

Heck, a member of the Indiana National Guard for 17 years, works fulltime as a staff supply assistant for his battalion. He has been a full-time Guard employee for 10 years. He holds the Indiana Commendation Medal and is a graduate of the 5th Army Non-Commissioned Officer School at Ft. Riley, Kan.

At the luncheon Thursday sponsored by the Grayling Regional Chamber of Commerce he was presented an award from Bear Archery and the Chamber.

Albert R. Mitchell, executive vice-president of the firm, gave Heck one of the famous Bear bows.

Heck said he has only fired a bow a few times in archery practice but is looking forward to developing it as a hobby.

The soldier also received the Schlatter Trophy, awarded by the 38th Division to its outstanding soldier.

Maj. Gen. Kenneth W. Brewer, the 38th's commanding general, was on hand with other division officers to honor Heck.

In charge of the awards luncheon was Earl H. Longworth, general manager of the Grayling Chamber of Commerce.

The 38th Division, now in annual summer training at Camp Grayling, is made up of National Guard units from Indiana, Michigan and Ohio.

Christmas Already

Christmas is just a little over four months away and will be here before we realize it. The Crawford County Community Service has a lot of work to do between now and then. It will need a lot of volunteers. There will be some dolls to dress. There will be some mittens to knit. Women who are "handy" with sewing machines could help us make some dresses for little girls who might not get a new dress for Christmas. There must be some men in our community who could help fix toys. We hope you will all start thinking about these jobs and volunteer your services.

Sight Funnel Clouds Near Here

By Chris Gentry

Two funnel clouds reportedly dipped down over Houghton Lake and began picking up water at about 8:00 p.m. Monday, August 5. The water spouts did little damage and after swirling across the lake apparently returned to the sky.

The line of storms then proceeded northeastward across Oscoda county, and headed on toward Lake Huron, where no more damaging storms were reported.

The storms missed Crawford county by only a few miles. If the storm line had entered any portion of Crawford county, the siren would have been sounded and residents would have been alerted.

Tornado watches were issued again by the Weather Bureau on Tuesday and Thursday, but no tornadoes developed.

The cause of this unusually turbulent weather was a mass of cool, dry air to the north clashing with the warm, moist air streaming up from the south. The cool air finally moved over the area Saturday, dropping temperatures considerably.

Proof Positive, Crops Grow In County

DR. GODFREY in the combine directing the bagging of wheat grains just picked from the field. Assisting are, from the left, Larry Chorven, and Lyle Barnes.

THE DOCTOR in the tall outfield.

SHOWN HERE is the truck garden, containing squash, tomatoes and popcorn against a background of sunflowers again with Larry Chorven. The popcorn is his project.

One only has to go about nine miles southwest of Grayling in Beaver Creek Township, to find out that good old Crawford County sand does grow more than jackpine.

The photos shown here were taken at the Dr. Godfrey farm two weeks ago.

Dr. Bernard Godfrey of Beaver Creek Township has 30 acres in grain consisting of wheat, rye, oats and barley along with another 30 more in alfalfa and sweet clover left for seed, plus a truck garden for his own use.

The grains he is growing are Genesee wheat, Balboa rye, Trail barley and Rodney oats the last of which he feeds mostly to the 20 pigs he is raising.

Dr. Godfrey, a practicing dermatologist, plans to write a paper on the relation of skin diseases and minerals. He is experimenting with his pigs this year especially with selenium, related to vitamin E.

He also put in 4 acres of milo, supposedly a 60-80 day crop, but at the time he said the crop looked doubtful because of the cool evenings we had been experiencing.

He has his soil tested by the Brookside Laboratory Association of New Knoxville, Ohio, and on results of this, supplies the missing minerals to bring his soil into proper balance.

His methods are successful according to results, which come with 50-60 bushels to the acre of rye, 50 bushels per acre of barley, and similar high return on all his grains.

Dr. Godfrey came to Crawford County with his parents, the Philip Godfreys in 1928, when they purchased the former Frank Barber farm. The place has been a good farm for many years, demonstrating the care of its owner.

Mr. and Mrs. Woods, also of Fort Worth, have been staying at the Kenneth Ashton home on W Lake since March, and are planning to leave this week for St. Ignace.

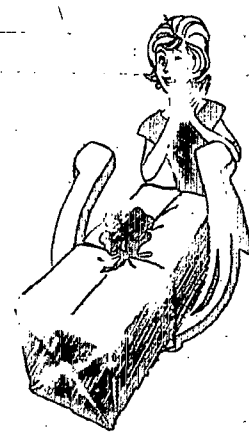

Master Sgt. Arthur Bentley, his wife and their two sons, Wayne and Jeffery arrived Saturday to spend two weeks with his mother, Mrs. Albert Bentley.

Mrs. Freda Tiffin returned to Flint last Wednesday after a nine-week stay with her daughter, Mrs. Andre Bourque. Mrs. Tiffin helped with the Bourque children while Mrs. Bourque had an operation.

Grandsons of the Howard Bunkers, Steve, Lee, Tony Babbitt and family were at the cabin on the river weekend before last.

Mr. and Mrs. Ben Jerome of Fort Lauderdale and Grayling observed their 57th wedding anniversary here August 2nd. The Ben Jeromes Jr. and the Arnold Jeromes, both of Pontiac and the Donald Ballmans of Midland were on hand for the occasion, and spent the weekend. There is a Difference

A good example of how permissiveness can lead to anarchy is seen in a recent "national convention" of a group known as Students for a Democratic Society — SDS. Seven hundred young people attended the convention. They passed a resolution calling for "support for (military) deserters and their demand for amnesty." The resolution also stated, "The armed forces of the United States are presently constituted as the primary instrument of American imperialism and are used to oppress people in the United States and other countries." It concluded by resolving that members of SDS "initiate and support activities directed toward creating a radical political consciousness among the members of the armed forces."

What may be even more offensive to the patriotic citizen than the goals of the SDS is the fact that the misdirected young people held their convention on the campus of Michigan State University. Two members of the Michigan State Legislature toured the campus during the event. One of them said, "I never thought I'd see anything like this at a state-supported university." Advocating such a course should not be confused with the right of free expression. Apparently, the SDS members were never taught the difference.

Are You An Alcoholic?
Are you an alcoholic? If your answer is "no," answer the following questions yes or no:
1. Have you ever tried to stop drinking for (week or longer), only to fall short of your aim?
2. Do you resent the advice of others who try to get you to stop drinking?
3. Have you ever tried to control your drinking by switching from one alcoholic beverage to another?
4. Have you taken a morning drink during the past year?
5. Do you envy people who can drink without getting into trouble?
6. Has your drinking problem become progressively more serious during the past year?
7. Has your drinking created problems at home?
8. At social affairs where drinking is limited, do you try to obtain "extra" drinks?
9. Despite evidence to the contrary, have you continued to assert that you can stop drinking "on your own" whenever you wish?
10. During the past year have you missed time from work as a result of drinking?
11. Have you ever "blacked out" during drinking?
12. Have you ever felt you could do more with your life if you did not drink?
What's your score? Did you answer YES four or more times? If so, chances are you have a serious drinking problem, or may have one in the future.
These questions were prepared by Alcoholics Anonymous World Services, Inc., who base them on the experience of tens of thousands of recovered alcoholics.
"Alcoholics Anonymous is a fellowship of men and women who share their experience, strength and hope with each other that they may solve their common problem and help others to recover from alcoholism."
"The only requirement for membership is a desire to stop drinking. There are no dues or fees for A.A. membership; they are self-supporting through their own contributions. A.A. is not allied with any sect, denomination, politics, organization or institution; does not wish to engage in any controversy; neither endorses nor opposes any causes. Their primary purpose is to stay sober and help other alcoholics to achieve sobriety."
No one can tell someone else he has a drinking problem; this is something you can only tell yourself.

GIRL SCOUTS TO HAVE NEW LOOK

Girl Scout women of Big Waters Council will have a new look, beginning in August when, for the first time in 20 years, there will be a change in the adult Girl Scout uniform. The new uniform is really a dress - contemporary, casual, comfortable and durable. When the insignia are pinned on, it becomes official. Designed by Stella Sloat, the dress is green with yoke, modified A-line, walking pleats and patch pockets. There is a matching beret and a bone-colored scarf and gloves to accessorize the uniform. Selection of the design was influenced by emphasis on uniformity of appearance without a military style. All present uniforms may continue to be used until worn out. There is no change in the four girls' uniforms. Some 1,800 retail outlets across the country handling Girl Scout equipment sell some 40,000 adult uniforms yearly. Official outlet in the Big Waters Council is Penney's in Alpena.

WASHINGTON AND Small Business
BY C. WILSON HARDER
Photo Updated

The new book "The Modern Industrial State" by Dr. John Galbraith, ex-ambassador, advisor to presidents and so on, is most interesting.

For he makes the case, as did Plato some 2300 years ago, that the best way to keep the economy, the social order and other matters on an even keel is to have at the wheel a group of super planners who would compromise the government.

Now, of course, one could well launch into a discussion of how well the super planners, called government economists, have been handling the affairs of the American ship of state these past few years, bringing up such items as the balance of gold, the national deficit and other matters.

But it is perhaps more germane to discuss the matter from another aspect. And although United Steel is not what can be considered a small business, this corporation does serve as an illustration.

A little over four years ago United States Steel decided to raise the price of steel. As a layman in the intricacies of the steel industry, it was thought rather strange, in view of the increasing cheap imports of steel that such a move was taken. On the other hand, it can be presumed that the management of the company must know what it is doing.

But this attitude did not prevail in Washington. Those who

had never made or sold a pound of steel in their lives immediately clamored this price raise was all wrong. The Justice Department was called into action, and in fact the bureaucrats apparently stopped just short of ordering out the militia.

Now fairly recently U. S. Steel announced price cuts in many steel items, stating this was done to meet up an increase in cheap foreign competition.

It is interesting to note that this price cut came at a time when the nation is still waiting for a steel strike, and also when there is every expectation of a steel strike. Again, as a layman, this does not seem the time to cut price.

But the price was cut due to the competitive situation in the steel market. It was done without a ukraine from would be economic planners in Washington.

As a matter of fact, the juggling of tariff rates by the Washington thinkers was one of the reasons for the price cut.

There is no great new moral involved here.

But it does point up one old fact. When politicians and their even less experienced bureaucrats try to play businessman, the result is as ridiculous as a six year old boy trying to play big by dressing up in his father's clothes. And not nearly as amusing either.

Keep It Beautiful

If America hired people for the job, it would take the largest sort of army to keep our country free of litter. But there's no need to hire anyone. It's a job we can do for ourselves. All of us. Every family that spreads picnic lunch. Every boatman who cruises the lakes and waterways. Every motorist who uses our roads and highways.

It is the pleasure of the U. S. Brewers Association each year to give its fullest support to the Keep America Beautiful Campaign. Remember! Every Litter Bit Hurts. This is our land. Let's treat it right.

Now Is The Best Time To Make A New Lawn

By Willard Roscommon,
County Extension Natural Resource Agent

August is the best month to make a new lawn. We can usually expect an increase in rain fall and there will be less competition from weeds than in the spring. August is the time nature sows grass seed.

Dark-colored sandy loam and loam soils are ideal surface soils for lawns. They are well supplied with organic matter. It is the organic matter that gives soil its dark color. Many lawns in this area are established on sands and loamy sands.

Such lawns require much more attention than lawns established on finer soils. If you are making a new lawn, a good long time investment is to haul in a good sandy loam or loamy soil. This should be 4 inches deep. After the rough grade has been established and the surface soil spread, broadcast a generous amount of turfgrass fertilizer over the lawn area. Mix it thoroughly with the top two or three inches of soil by raking or by other surface cultivation. Use 10 to 15 pounds of 12-12-12 or a similar fertilizer per 1,000 square feet of lawn.

Kentucky bluegrass has been a standard lawn grass for many years and produces very good lawns under good maintenance practices. It is not drought tolerant, but can be maintained successfully.

Red fescue is the best grass to plant in competition with shade trees, shrubs and on sandy soils where drought and low nutrient levels are likely to be common.

Plant the best quality seed, of the permanent grass best suited for your conditions, at the rate of one (1) pound per 1,000 square feet of lawn. In the case of mixed areas of shade and open sunny conditions plant a mixture of 1 part bluegrass and 1 part red fescue.

For more details obtain the folder, "Making a New Lawn" from the Cooperative Extension Service, County Building, Roscommon.
